

Does **Your Company** Here support a **Tax Cheat?**

Delta Drywall is performing and/or has performed drywall work at Your Project

Delta Drywall has been known to pay workers cash on other projects
When workers are paid in cash, no taxes are taken out for state or federal government. Is it fair that Delta is placing the tax burden on honest, hard working people, rather than paying their fair share?

Delta Drywall has been known to under report hours that their employees worked on a State Prevailing wage project
When Delta Drywall under reports hours to the State, less taxes are taken...once again placing the tax burden on hard working people.

Who benefits when a company like Delta Drywall cheats the system?

Not your average working person and tax payer.

**Please support our efforts in NOT Supporting tax cheat contractors like Delta Drywall.
Please call John Doe at Your Company, 555-123-5000,
and tell him you disapprove of his use of a tax cheat.**
